

**REMARKS**

The Examiner considered that the original claims are directed to two patentably distinct groups under 35 U.S.C. §121, and consequently suggests election of the invention from the two groups, namely claims 1-21, drawn to a pharmaceutical composition, and claims 22-26, drawn to a method of preparing a pharmaceutical composition.

Applicants hereby elect the groups on which claims 1-21 read. The election is made without waiver, estoppel, or prejudice to the filing of one or more related applications direct to the subject matter of the withdrawn claims.

Respectfully submitted,

DATED: June 7, 2005
